

## SA Worksheet

- Number of Shooters Upon Arrival
- Number Shooters Arrived During Shift
- Number of contacts

Record only one contact for each person you talk with.

For the purpose of recording "number of contacts" a member's guests are considered a single contact. If the contact is a guest, discuss the issues with them, but record them as one "insufficient guest control".

If it is necessary to talk with a member or guest more than once, it is still a single contact.

Continue recording each type of issue discussed when the contact is with a member

As before, if the issue is not one of the common teachable moments, list them in the narrative section.

### **Common Teachable Moments: (Input number of each issue)**

- No Safety Issues
- Eye protection
- Insufficient Guest Control
- Forward line while hot
- Firearms on back tables
- Handling while cold
- Muzzle control
- Range Warning System
- Firearms not made safe
- Narrative: Issues not covered above. Comments
